

# ORDER FORM

October 2018

**THE BALANCE MAT** is a breakthrough in balance measurement that allows healthcare providers and fitness instructors to measure the balance of their clients.

There are two types of Balance Mat: the Unimetric (single standing position) model and the Multimetric (multiple standing positions) model. The Unimetric model comes in two sizes – a standard size for in-house use and a smaller portable model for at-home visits.

You can **buy** a Balance Mat online via the 'Buy' button on the Balance Mat website at [www.balancemat.com.au](http://www.balancemat.com.au) or by completing this form and sending it to the address set out below. You can also **lease** a Balance Mat using this form.
